DETAILED ACTION

1. This action is responsive to the after final amendment received on 11/14/2007.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raymond Owens - 22363 on 11/27/07.

The application has been amended as follows:

Claim 2, line 9, after "color;" delete "and".

Claim 2, line 12, after "intervention", insert "; and (e) determining when sky occlusion regions are formed by hanging wires and determining the orientation of the image based on the detected hanging wire regions"

Cancel claim 6.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach the detection of hanging wires against the backdrop of the sky and either replacing the pixels constituting the hanging wires or determining the orientation of the image based on the direction of the hanging wires, all without requiring user intervention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
